10. Statements Specific to Spring 2021

Course Format and Scheduling

Course content will be delivered through synchronous online learning. Synchronous learning will take place online during the registrar-scheduled class times for this course. Students are encouraged to join the class at the designated time, just as they would attend an in-person class. All sessions will be recorded and available on the course d2l page. Please see the course d2l page for details on accessing the synchronous class sessions.

Expectations for Attendance and Engagement in Online Sessions

Active engagement in class and with course material is essential in any course. In the online context, students must take increased ownership of their learning.

Expectations for attendance at synchronous sessions are the same as they are in a face-to-face course. Students are expected to adhere to class norms. These include:

- Keeping the microphone on mute unless called on by the instructor (or participating in oral discussion)
- Using the features and tools in Zoom as requested by the instructor
- Communicating in a professional and respectful manner at all times

Guidelines for Completing and Submitting Coursework

Quizzes will be completed on d2l.

Assignment code and reports will be submitted using git to github. Once complete, the process is confirmed by submission to d2l dropbox. This workflow will be further explained in the beginning of the course.
